

Perimeter to Core Security Practice

The business of securing enterprises from their perimeter to their core is the business of **ecfirst.com**. **BizShield** is **ecfirst.com's** security methodology for designing and implementing solutions to protect vital enterprise assets and communications. The **BizShield** methodology is based on the principle of "defense-in-depth." The **BizShield** methodology is influenced by the ISO 17799, BS7799-2 security standards and the CobIT framework for security audits. The solutions designed and implemented by the **ecfirst.com** Security Team are comprehensive and scalable. **BizShield**-based Security Solutions may be used to address your requirements for confidentiality, integrity and availability of sensitive business information.

Identity Management Solutions

Businesses today are faced with the challenge of establishing trust in the online environment. **ecfirst.com** can deliver customized solutions in the areas of:

- Authentication (Tokens, Biometrics, Smartcards)
- Access Management
- Auditing
- Security Administration

Security Services

ecfirst.com delivers highly specialized security services in the areas of:

Download the FREE BizShield Assessment document to identify gaps in your enterprise security.

Security Training

ecfirst.com delivers highly specialized, hand-on security training courses as well as executive briefs and workshops. The courses delivered by **ecfirst.com** include:

- Security Brief for Managers (3 hours)
- Network Security Fundamentals (5 days)
- Hardening The Infrastructure (5 days)
- Network Defense and Countermeasures (5 days)
- PKI and Biometrics Concepts and Planning (5 days)
- Advanced Security Implementation (5 days)

BioShield Biometrics Logon

BioShield replaces the standard Windows Logon Screen. System Administrators use standard Microsoft Administration Tools to manage end users' authentication information.

"BioShield is not only a foolproof method of authentication, it is cost effective as well."

Jim Presley, CIO, VA Medical Hospitals,
United States Dept. of Veteran Affairs

SECURITY PARTNERS

Certified HIPAA Security Specialist (CHSS)

Order Today!

The **Certified HIPAA Security Specialist (CHSS)** program is a 2-day course that covers all areas of HIPAA Security, as well as addresses security policies, procedures and solutions for compliance.

"Excellent experience. This course thoroughly covered **HIPAA security**. The HIPAA Academy examined the intricacies and implications of the Security Rule in a very understandable manner. I enjoyed the instructor and appreciate the knowledge transfer that helps establish my credentials as a knowledgeable HIPAA Security professional. I'm a repeat customer and will definitely stay in touch for future courses and testing."

Bob Tahmaseb, CISSP, CHSS
RSA Security, Inc.
