“As an organization in the healthcare industry, getting HITRUST CSF Certification was one of the primary goals of Trionfo Solutions. With such as big task ahead of us, we knew we needed help and partnered with ecfirst for our HITRUST journey.”

“From the very beginning, ecfirst provided all the necessary information in understanding the complete HITRUST process from start to finish. As we worked through all our efforts from scoping, policy, procedures and implementation, the ecfirst team went above and beyond spending countless hours in providing key information, resources, and walked us through every step of the way in achieving our goal. After months and months of effort, we are so happy to recently receive our first round of HITRUST CSF Certification. This was an enormous effort for us and having partnered with ecfirst gave us the guidance and expertise needed in getting our HITRUST CSF Certification.”

“We are now working on our HITRUST interim assessment as well as planning our recertification and looking forward to working with ecfirst for the second round.”

Bryan Villanueva
IT Infrastructure and Security Officer
I just wanted to take a moment and say thank you. Thank you and the excellent team at ecfirst for hard work, late hours and diligence during the first round of our HITRUST CSF Certification, and now working on our annual risk management and HIPAA compliance assessment.

We at BRG are always looking to improve and enhance our compliance and cybersecurity posture. This is an area of executive and strategic priority for our organization to secure confidential client information. From HIPAA compliance, cybersecurity pen tests, to the HITRUST CSF Certification engagement, we have found ecfirst to be an exceptional partner that labored incredibly hard for us, with us. The ecfirst insight and diligence to ensuring HITRUST CSF Certification mandates are met led to us completing our engagement on budget and time. We look forward to deeper collaboration with ecfirst in the cybersecurity space in the future. I know they are personally committed and engaged to ensure BRG success with each engagement. I continue to recommend ecfirst highly and often!

“ecfirst is a great partner for P3 Health Partners as we work towards HITRUST CSF Certification. We started with an extremely tight time frame which required all involved to be focused and dedicated to our objective. ecfirst has been a dedicated partner and provided whatever resources were needed for us to accomplish our goals. Every person from ecfirst has been professional and knowledgeable. They have continuously gone up and beyond expectations and truly been a partner that cares about their clients. I look forward to our continued partnership because I know they have our best interest in mind.”

“Mom's Meals, as a food manufacturer in the healthcare industry, viewed pursuing a HITRUST CSF Certification as a way to demonstrate that it takes security to heart. Since we did not have internal subject experts, Mom’s Meals realized that a partnership with ecfirst was paramount to a successful journey to achieve HITRUST CSF certification.”

“From the start of our project, ecfirst provided guidance and insight on the HITRUST CSF certification process. Mom’s Meals had a very aggressive project timeframe and ecfirst worked with us to complete the project within that timeframe. With the help of ecfirst, their very competent Assessor and with their Team, we successfully received our first round of HITRUST CSF Certification.”

“Mom’s Meals is preparing to work on our HITRUST Interim Assessment and looks forward to working with ecfirst to complete that in a timely manner.”

“I have 20+ years of experience in the Healthcare IT industry in a variety of roles including Cybersecurity software and services. During this time I have seen numerous speakers on the topic of Cybersecurity and Ali Pabrai is among the best. He covers the state of the industry, healthcare-specific regulations, process, product, best practices and call-to-action takeaways in a manner that can be understood at multiple levels including technical, clinical, supply chain and executive.”

“Ali also weaves in stories and humor to keep the audience engaged on what can be a dry yet frightening topic. I highly recommend Ali Pabrai as a speaker, trainer and consultant in this area.”

“It has been our pleasure to work with the ecfirst Team on the Cerner HIPAA risk assessment. I appreciate the patience you all expressed in getting the contract off the ground, the flexibility you all demonstrated to meet our needs, and the professionalism you all demonstrated along the way.”

“I have received kudos for a job well done and I know from experience those reflect the work you did.”

“I have had multiple discussions with Cerner Chiefs – our Chief Information Officer, Chief Security Officer, and Chief Compliance Officer – and all are satisfied and have asked me to thank you.”

“I hope to work with your team again in the future.”

We have had the true pleasure of working with Ali Pabrai at conferences all over the world during the past few years – with one unanimous word that keeps resounding among audiences and staff alike – AWESOME!

He is a tremendously engaging and knowledgeable presenter who is able to distill the essence of complex cybersecurity topics into comprehensible and actionable components for both highly skilled, technical audiences as well as those who are just entering or transitioning into the security part of the IT industry. His “behind the curtain” professionalism and enthusiastic willingness to help develop, customize and deliver great content paired with his absolute commitment to professionalism as a presenter and “doing what it takes” is a rare combination. We greatly look forward to working with Mr. Pabrai each and every time and know he will deliver excellence.

Michael Mach, CMP, CMM, CED
Conference Program Manager

Ali Pabrai is an exceptional presenter who possesses a broad-based knowledge of cybersecurity and compliance. The scope of his talents range from boardroom-level strategic discussions on cybersecurity to tactical implementation plans suitable for company-wide execution. Ali is skilled in the evangelization of the state of today’s cybersecurity threats and passionate in communicating an action plan a Board of Directors should pursue to mitigate exposure.

I first learned about ecfirst through a detailed online search of providers in the healthcare certification space, specifically HIPAA and technology security related programs for my company. I quickly learned two things that were not immediately available online. First, the detailed nature of the testing met my criteria to ensure this is not a ‘check the box activity’ but rather one that ensured adoption and internalization of knowledge. Second, I found the secondary businesses units that can provide compliance as a service. I purchased a penetration test and had one of our applications certified ‘HIPAA Complaint’ and feel that both items added fantastic value to my organization.

As a Business Associate based in California, episource is very sensitive about any U.S. healthcare client information it processes at its offshore facility. With a deep commitment to ensure complete HIPAA and HITECH Act compliance, episource selected ecfirst as the optimal organization to partner with for a comprehensive and thorough analysis of its policies, procedures, and practices to meet U.S. federal and State mandates. episource is looking to adopt the ISO 27000 as the broad security framework for its internal compliance requirements – and the efforts of ecfirst have positioned us exceptionally well in this area.

The ecfirst HIPAA, HITECH and ISO 27000 knowledge, experience, and practical guidance, have put us solidly on the road to achieving our goal, within our time window and budget defined. ecfirst demonstrated enormous flexibility in packaging its services to address our specific requirements.

For episource, achieving compliance is an issue of ensuring client trust, and we could not have met our objective without the insight and devoted engagement by ecfirst.

When GHX began discussing our march toward HIPAA compliance, there was a general consensus about where we had to be - in three years, but there was also a notable lack of agreement on how we might get there. After thoughtful consideration (and amazing good fortune) we chose to seek the services of ecfirst as our “implementation partners” to assist our efforts with HIPAA using ISO 27000 as the framework.

I’m happy to say, it was the best choice we could have made. Their ISO 27000 experience, comprehensive approach, and practical guidance have put us solidly on the road to achieving our goal, within our time window.

For GHX, achieving compliance is a huge effort, and having a dependable ally was critical to our success.

Ensuring secure and appropriate access is not just a compliance requirement, but vital for protecting confidential patient information. Northwest Community Healthcare (NCH) has been very fortunate to find a partner in ecfirst to address several compliance challenges, be it HIPAA, HITECH, PCI DSS or the FACTA – Red Flags Rule. NCH has been an early adopter of the ecfirst Managed Compliance Services Program (MCSP) which provides a comprehensive framework to address areas such as Business Impact Analysis (BIA), Disaster Recovery Plan (DRP), Risk Analysis, Vulnerability Assessment, Security Remediation, Training, Certification, Policy Updates and more.

"ecfirst has been a highly valued and responsive partner in its role to enable NCH to be a more trusted hospital."

We are really grateful to Pabrai and his team coming all the way to Ghana for the HIPAA and CSCS™ training. The training changed the perception of most of the delegates resulting in change of attitude in their work in relation to data protection & handling and IT security. The lessons learnt was invaluable and most of the participants have started putting in requests for an encore.

It was a great pleasure working with the ecfirst team, learning about how to handle different working culture in our various countries. We take this opportunity to say a big ‘Ayekoo’ (Well done in our local parlance) to all the team members of ecfirst who made this maiden training program in Ghana a success. Season greetings to you all and a Happy New Year. Cheers and God bless you all.

“I want to state categorically that your work and that of the ecfirst team throughout this process has been exemplary, as has been the finished product. I would not hesitate to recommend you and ecfirst to colleagues at other PPs. Rarely have I been so impressed with the knowledge, professionalism and quality of work as I have been with both of the HIPAA audits your firm performed for PPGG. Thanks again for all of your team’s hard work.”

I discovered ecfirst, Home of the HIPAA Academy, when I made an application to the National HIPAA Summit in Washington DC. As part of the application process, HIPAA Academy's HIPAA certification courses were offered. The price was very competitive and I could regulate how quickly or slowly I took the course. I took ecfirst's Certified HIPAA Administrator™ (CHA™) course and exam. The course instructed the learner in the basics of HIPAA Privacy and Security.

The next course in their series is the Certified HIPAA Professional (CHP). This is an intensive training program delivered by one of ecfirst's professional instructors. Thirteen privacy officers in my agency attended that training. This course is much more detailed in terms of HIPAA Privacy and Security. My colleagues and I now have a much deeper understanding of the Privacy Rule, the Security Rule, National Healthcare Identifiers and Code Sets.

The on-line support provided by ecfirst was excellent and timely.

I highly recommend the ecfirst and HIPAA Academy certification courses.

pi International was looking to partner with a firm that would "look underneath the rocks" to ensure compliance with the HIPAA regulations. No organization provides the depth of expertise and hands-on experience in enabling compliance with regulations as ecfirst, home of the HIPAA Academy. ecfirst has been relentless in ensuring that we at pi raise our bar significantly to protect and secure all PHI we process. We are today a better organization for our clients as a direct result. As a business associate with capabilities in the USA, Singapore, BVI, and India, we treasure our relationship with ecfirst in working with us to always ensure we keep ahead of the regulatory challenges in the healthcare information technology area.

Ali really had his work cut out for him. Talking to a group of security solution experts about compliance and regulation. He also had the added layers of this training being held in Las Vegas during a sales kickoff event which kept most of the attendees up all night:). The material was presented very professionally and with a pleasant level of enthusiasm. Ali’s preparation really paid off as the class often took opportunities to have some fun with him and he didn't miss a step. Ali's commitment and professionalism really came through when he offer to host a after-hours study session for us and by the end of the two days it really seemed as Ali was ‘one of us’.

“The class has really helped my confidence in speaking to customers about compliance and I have already been able to use lessons learned in class to assist my customers. Thanks to ecfirist for making compliance training interesting and dare I say fun!”

“Bista Solutions is a service provider in the Healthcare industry mostly focussing on the provider side. We take security and compliances seriously, which is the reason we opted for ecfirst to assist us in our journey of HIPAA audit and compliance. There was a suggestion of doing the compliance in-house, but we found ecfirst to be a leader in the field and the right partner to assist us in our HIPAA compliance endeavour. The HIPAA training provided by ecfirst to our team was invaluable and the meticulous Audit process assisted us in marching our company towards HIPAA compliance.”

I am pleased to write this letter of recommendation for ecfirst.

One of my main clients, the Utah Department of Health has been managing a major breach of data under the control of a business associate.

“ecfirst was contracted to provide security risk analysis, technical vulnerability assessment, policy development, as well as training and certification services, including the Certified HIPAA Professional (CHP) and the Certified Security Compliance Specialist™ (CSCS™) programs. My client reports, and my interaction supports, that ecfirst has been very professional in their contract performance. Services were tailored to meet the needs of the Department and Utah law.”

“ecfirst has demonstrated dedication to ensuring that projects goals were met or exceeded every step of the way. I strongly recommend them to anyone in need of similar services.”

Doug Springmeyer, Assistant Attorney General
Chair, HIPAA Implementation Committee
Utah Attorney General’s Office

“ecfirst provided The Utah Department of Health (UDOH) a set of HIPAA security policy templates and follow-up consultations. We were able to efficiently modify, adopt and put the policies into practice. Adopting ecfirst policy templates shortened our policy developmental time and established a solid foundation for us to implement HIPAA requirements.”

Wu Xu, Ph.D. Director, Office of Health Information and Data Security
Information Security Officer, Utah Department of Health

“The professionalism and complete subject matter knowledge make ecfirst the consultants of choice for HIPAA and HITECH information and issues. Our experience with ecfirst was unwavering in addressing all issues and enabling a foundation for an active and vibrant compliance program. Pabrai’s leadership was exceptional, very devoted to ensuring all areas were appropriately addressed.”

As a long-time customer of All Covered, a business unit of Konica Minolta, who manages my company IT infrastructure, my firm first reached out to determine if they knew of a party to help with an Information Security Risk and Vulnerability Assessment. I was pleasantly surprised to know that All Covered has a strategic partnership with ecfirst. This eased my mind immediately because I knew that any successful assessment and subsequent actions would require collaboration from multiple parties.

Since the beginning, my experience with ecfirst has been outstanding. I spent the most time with the professional responsible for the Risk Assessment. He was outstanding every step of the way. Unlike other company services which encompass an assessment only, ecfirst offered a package of services which did not stop with the assessments and instead began the groundwork for a solid set of policies and procedures which I could then review and amend with the particular information that only I would know about my company processes. Many questions came up during this part of the project, and ecfirst was beyond responsive and answered every question as thoroughly as I could ever imagine.

I am very grateful for the services ecfirst has offered and very fortunate to have this partnership between ecfirst and All Covered/Konica Minolta available.

I would recommend ecfirst for information security services.

As a leader in consumer-driven healthcare account administration of HSA, HRA, FSA, and VEBA, and with health exchanges, HealthEquity is very sensitive to the PHI it manages. HealthEquity selected ecfirst to partner with for an independent, third-party review of our compliance with HIPAA and HITECH mandates. We found that ecfirst provided exceptional value for the work they delivered. The staff members were easy to work with. Their insight and guidance has enabled our organization to be better positioned to address compliance requirements. We highly recommend ecfirst and look forward to working with them again in the near future.

Our organization manages an IT infrastructure for a hospital system that is rich and deep in confidential patient information. We selected ecfirst (The HIPAA Academy) to partner with, for an independent, third-party review of our compliance with HIPAA and HITECH mandates. The core objective of the exercise was a comprehensive risk analysis exercise that was inclusive of a technical vulnerability assessment and a social engineering engagement. We found that ecfirst provided exceptional value for the work they delivered. The staff members were very professional and easy to work with. Their insight and guidance has enabled our organization to be better positioned to address complex compliance requirements. We highly recommend ecfirst and look forward to working with them again in the near future.

We have successfully completed our first learning experience with ecfirst. In order to stay compliant with our internal HIPAA policy, we made the decision to partner with a third party for basic “HIPAA Awareness” training.

We were searching for an online, self-paced learning experience that would incorporate the basics, highlight our own internal policy and offer a quiz for comprehension as well as a certificate of completion. We found this option with ecfirst and it was offered at a very affordable price.

I had the privilege of working with Kris Laidley on the preliminary set-up and customization of our program. This was a first for us so there were many tweaks made along the way. She was extremely helpful, very patient and obviously makes customer service a priority.

In speaking with the employees who participated in the training, I heard many positive comments about the type of information covered as well as the flexibility. Our participants appreciated that the information presented was very direct and succinct.

“We appreciate all that you and Kris did to make this a success.”

“I’m the President of a small Healthcare IT consulting firm, and I am the second of our staff to attend an ecfirst HIPAA training course. In my opinion the course was well organized, well presented, and a wealth of information was provided for all of the students to learn. The instructor, Lorna Waggoner, was passionate about the topic, and was able to bring the material to life with her many personal anecdotes and experience. The materials provided were well written, accurate, and easy to read, which helped translate dry Federal Law into usable material. The venue was perfect for the course, easy to get to, had free WiFi, and excellent lunch food was provided. I would recommend this course and ecfirst to anyone seeking to gain more knowledge and expertise about HIPAA legislation. It was a very pleasant experience.”
Evan Corstorphine

“Great course! Lots of material in a short period but the instructor made the information easy to remember and digest. I would highly recommend this course to the beginner to the expert; IT people as well as administrative. There are 2 A's in HIPAA and Privacy is not in the title!”
Zadoc-Lee Kekuewa
MSC-Navy

“The CHP course was a well condensed course with excellent delivery of the needed regulations for my staff to be able to talk the talk and know how to walk the walk on their own. The instructor’s (Lorna Waggoner) witty jokes and delivery of the information made it easier for myself, and later my staff, to comprehend and retain the information being presented to us. During the CSCS™ class my staff enjoyed Allen’s teaching technique, although Ali taught when I went I found the information was delivered both times in an equally impressive, condensed but retainable manner and we all came away from both classes knowing the information and not just memorizing a bunch of acronyms. I highly recommend ecfirst.”

"I really enjoyed the class. I've been reading HIPAA regulation on and off for some years now, but felt rather bored and lost at times on how to approach understanding such a dauntingly large and somewhat nebulous federal regulation. The HIPAA Academy’s Certified HIPAA Professional (CHP) class encapsulated everything into a well-organized and structured logic that I could understand and absorb much more easily and quickly."
Patrick So, CISA

The manual & reference cards are invaluable tools to have handy when implementing HIPAA and needing as a reference. I would recommend this course to all clinical and non-clinical healthcare workers.”
Dana McGrath
"The CHP course was a well condensed course with excellent delivery of the needed regulations for my staff to be able to talk the talk and know how to walk the walk on their own. The instructor (Lorna Wagoner) witty jokes and delivery of the information made it easier for myself and later my staff to comprehend and retain the information being presented to us. During the CSCS™ class my staff enjoyed Allen’s teaching technique, although Ali taught when I went I found the information was delivered both times in an equally impressive, condensed but retainable manner and we all came away from both classes knowing the information and not just memorizing a bunch of acronyms. I highly recommend ecfirst.”
Clint Russell
Mays Home Health Companies

“Excellent, up-to-date information; expert instructor with great presentation style.”
Doug Renshaw
Highmark

“This class is for beginners as well as people who have previous HIPAA experience as it validates what we have been doing is correct and if not, how to make it correct and feel in control of our PHI.”
Sylvia Hale
Umpqua Community Health

“Instructor was awesome! He knew his stuff and was able to help us put the regulations into context relative to our specific issues to the regulations. I’d highly recommend him as an instructor. The only negative I had was that it would have been helpful to have the book prior to the class. This way, we could have been more prepared to ask questions on specific items and also to have more time for on-site exam preparation.”
Students from OneBeacon Insurance Co.

"First, Lorna is an outstanding instructor. She did an excellent job of keeping the class focused especially with all the material that needed to be covered. Several years ago in the original HIPAA Privacy and Security programs, I was responsible for the security assessment for the enterprise network (WAN). Learned a lot back then. It was great to see what's happening in the evolution of HIPAA even as we speak. Had a great time, learned a lot. Best of luck to all you folks at ecfirst.”
Preston Sharpe, Senior Technology Consultant
IT Compliance
Kaiser Permanente

“My experience with the HIPAA Academy, specifically ecfirst was by far the least painful training experience in my 11 years in the industry. HIPAA as it applies to Business Associates has always been a gray area for me. As a vendor, being compliant in a client's eyes is of the upmost importance and this course really gave me some insight to be able to speak intelligently about this area.”
Chuck Edwards
Health check Incorporated
"The CHP course was a lot to take in at once, but the instructor's (Lorna Wagoner) anecdotes based on her extensive and relative field experience and her course delivery made the compliance material and the rather prosaic nature of the HIPAA Rule itself frighteningly enjoyable! I learned a lot!"
Chelsea Budzko
Info@Risk

“Lorna was an excellent teacher! She was fun and kept things interesting. There are other people in my firm that should and will take this class. I feel a lot more comfortable about how HIPAA relates to my company and how I will update our policies. THANKS! Also, I wanted to let you know that I was in a meeting on Monday and the owner of my company was talking about NPIs vs. UPINs. I was able to speak to the group on the difference and how the NPIs are assigned. Wow, did I take a lot out of your training!"
Kevin Hosty
Cleverley & Associates

“Great Course! Thoroughly, cleared up some of the muddiness of the HIPAA regulations for me.”
Deb Kipp
HKS Medical Information Systems

“I recommend the CHP course for anyone desiring a comprehensive understanding of HIPAA. The HIPAA Academy course solidified the understanding of HIPAA I had as a healthcare professional and increased my knowledge base in the areas of portability and accountability of healthcare information.”
Catherine Mathis, RHIT
La Palma Intercommunity Hospital

“After years of confusion about how HIPAA regulations impact the dental practitioners, this course has laid it out in plain English. I now feel confident about implementing the requirements and can also see business value in doing so.”
Victoria Post, DDS
American Dental Partners

Yvonne Ramos, HIPAA Privacy Officer
Montclair Hospital Medical Center

“The two days spent studying HIPAA in this format with people from all over healthcare fields greatly improved my understanding and ability to deliver compliance plans for my organization and our clients.”
Karl A. Mudra
Delta Dental of Missouri
“Wow! Lots of information in a short amount of time, but delivered in a way I could understand.”
Laura Morgan, Regional Applications Manager, Information Services
West Anaheim Medical Center

“I have attended over 70 trainings and still needed more information. The HIPAA Academy provided outstanding training both broad-based as well as in-depth that was comprehensive and critical to my complete understanding. I am grateful to my trainers who were both extremely knowledgeable yet were able to share their information on a level that I could comprehend. They were also reassuring and supportive.”
Debby Fencil
Familylinks, Inc.

"Within the first 30 minutes of this course I learned principles that have changed my entire foundational understanding of HIPAA. This training has given me a rock-solid foundation to build on."
Jason Anderson

“I recommend this class for all privacy, security officers. There is a lot of information that is beneficial and important for the healthcare provider. The class was fun, interesting and well organized. Thank you!”
Edelma Urquieta, HIPAA Privacy Officer
Chino Valley Medical Center

“I had no idea the topic of HIPAA was so involved. After taking this class, I feel that I have the information available to me in an easy to use resource that will help me to perform my job to a higher standard. Lorna Waggoner was able to take a complex (somewhat dry) subject and break it down into digestible and interesting 'bites'.”
Meg A. Watt
Intuit, Inc.

“A fast and effective overview of HIPAA; beginning to end, top to bottom.”
Kurt Harle
Mercy Medical Center – North Iowa

“The content of this course was extremely valuable and will drive significant change in our organization. In addition, the material was well structured, the instructor was very knowledgeable and the presentation was engaging.”
Caleb Merriman
Guidant Corporation
“Knowing nothing about HIPAA before attending - other than it existed - I left the CHP HIPAA training from the HIPAA Academy with a fairly thorough understanding at a very complex subject. I highly recommend the course for anyone who has a need (or desire) to understand HIPAA or how to assist an organization become HIPAA compliant.”
Peter A. Savarese
Compliance Counsel, LLC

“Lorna has incredible enthusiasm and while HIPAA training can tend to be boring, Lorna does an excellent job of keeping her CHP class participants engaged.”
Liz Johnson
Big Sky OB/GYN

“The course gave me the framework to build my knowledge on the topic. I'll walk away prepared to deal with my responsibilities with confidence since I know where to find my resources. Great course; it exceeded my expectations.”
Dana Webb

“Lorna Waggoner, the instructor, took a complex subject and made it user friendly. Great Job! Great Class!”
Jim Drennen
Pensacola Junior College

"The task of bringing my client to HIPAA compliance was dumped in my lap. As a consultant more on the management side of the healthcare industry, I felt overwhelmed when given the responsibility. Being only slightly familiar with the medical transactions, codes and procedure, I thought it impossible to even grasp HIPAA from a class. Boy was I wrong! I now am aware and feel competent in my knowledge of the scope of HIPAA, and I am convinced that it will be evident in my report/briefs to my clients. Thank you HIPAA Academy!"
Anita Herron
Primary Care Partnerss

"HIPAA Academy is a leader in the industry of HIPAA Compliance. It has been a professional and knowledgeable exchange of information. The personable and customizing options make the HIPAA Academy the source for your complete HIPAA Compliance."
Jenice Harter

“On behalf of the State of Oregon Department of Human Services HIPAA Privacy team, we would like to say, Thank You.”

“The dedication and passion that your team presented on a daily basis for the past five months has been outstanding. We were able to surpass our project goal by 6 percent and maintain our projected budget! This is a direct reflection of the flexibility of both your Management team and the on-site HIPAA Consultants performing the training.”

“When our organization scoped out this project to train up to 10,000 DHS employees on HIPAA Privacy we knew we would have to partner with a company that has proven their abilities at a national level. We were very pleased to learn that you had an interest in working closely with us to ensure our projects’ success. The HIPAA Academy’s past experiences, team members and client success’ made you the best choice for our project. You were able to prove to us the project plan you put on paper was able to be implemented and successfully achieved.”

“Every HIPAA Academy instructor delivered the training with enthusiasm and customized it to include specific examples from various organizations within the State of Oregon. The project itself was managed closely, transparently and responsibly from the Project Manager and her supporting team in the HIPAA Academy back office. All feedback was very quickly integrated in subsequent sessions to make every training session the best it possibly could be.”
“To date this is the largest departmental training project we have attempted. We owe a
great deal of its success to the team at HIPAA Academy. I hope we have the
opportunity to work together in the near future. We have and will continue to refer your
services to all parties that are looking for HIPAA compliance services.”
Teri Cardinale

The instructor was extremely well prepared and presented the material in a format anyone could follow. I recommend this class to anyone interested in HIPAA regulations or working within the healthcare industry."
Chris Brown
Zebec Data Systems

"The HIPAA Academy has embarked on a mission to train those involved with healthcare data - on the details of HIPAA law. This is no small task, as it seems even after 7 years the creators of the law have yet to move a good portion of the law out of the realm of theoretical. The instructor is probably one of the most knowledgeable in the country and his love of the subject shows in his lectures."
Jim Reynolds

"The Certified HIPAA Professional course is one of the best, if not the best, courses on the down and dirty of HIPAA. I highly recommend this course as a "Train the Trainer" for health care organizations looking to comply with current and pending requirements. This course is going to help me immensely in architecting solutions for organizations to comply with Title 2 requirements."
Bob Tahmaseb, CISSP, Systems Engineer
RSA Security Inc.

"The HIPAA Academy training course is comprehensive and practical. I walked away from this course with a very clear understanding of the Administrative Simplification components of HIPAA. This course allowed me to get my arms around some very complicated requirements and helped me piece the requirements together. I was surprised at how helpful it was because I had a fairly comprehensive understanding to HIPAA prior to taking the course. I highly recommend it to anyone who will be involved with HIPAA compliance; in fact, anyone who is involved with HIPAA would be foolish for not taking this course."
Teri Ann Lawyer, HIPAA AttorneyInc
Pingel & Templer, P.C.

"This is by far the most comprehensive course I have ever taken. The instructor’s personality and knowledge of the course really moves things along without making you feel too overwhelmed. For anyone involved with HIPAA in any capacity, I wholeheartedly recommend attending this course."
Barbara Slocumb

"All of us at New Horizons Computer Learning Center wanted to commend you on an excellent HIPAA session yesterday. We appreciate you coming in from Chicago for us. As we committed, our turn out was strong and attendee involvement was high. Our sales team very encouraged by the amount of interest that was generated in such a short amount of time. Out of the forty plus registrants around thirty arrived and many of these are preparing for future classes. Many of the students have commented on the quality of the HIPAAAcademy material and the professional manner in which the subjects matter was delivered. Your ability to answer questions thoroughly and quickly was greatly appreciated. I have no doubt they will refer additional co-workers to this session. On a separate note several members had shown additional interest in security training, which the SCP can deliver."

"If there is any way we can assist you in the future do not hesitate to call. We value our Partnership and plan on having great successes this year."
Dan Sorenson, Sales Manager
New Horizons of Des Moines, Iowa

"Lorna’s presentation was, again, great! She is a wealth of Knowledge. As a CHP, I took this again to learn of any changes since 2009. The class was better the second time around, and that’s because it reaffirmed what I already knew."
Tom Dumez, Compliance Specialist
Kent Record Management, Inc.

“I would recommend this course to anyone that deals with HIPAA, whether or not they have been trained. Excellent course! Great benefit to me and my company.”
Jerry Lavergne, IT Security & Compliance
Pathology Resource Network

"The Certified HIPAA Professional course is an excellent distillation of what really matters in HIPAA. Security and Privacy have been intimidating topics in HIPAA. The course materials organized the information in an approachable format. I’d recommend the class to anyone in a leadership position in the healthcare industry. In three days you really can get up to speed on the most significant event for the industry since Y2K." 
Mark Glowacki
IT Consultant & Project Coach

"It's a lot of information and I need to digest it before I go back to the plan I had already started to create."

"I learned a lot!"
"This course is the most complete, well written and well-presented HIPAA Courses I have been to."

“I thought that Alan was a terrific instructor. His enthusiasm for the subject matter made for an enjoyable class. His insights and examples added some clarity to content that could be considered very cloudy in some respects. As far as the structure of the class, I thought that two days and an exam (even though I didn't take it) seemed like too much to absorb. HIPAA regulations aren't what I consider an easy topic and there was way too much to cover to prepare for an exam.”

“I thought the instructor was great; really liked his teaching style and thought he knew his stuff. On the class, I actually think for most companies- 2 days is probably about right. We tend to ask tons of questions / get into different topics (in a good way).”

“Instructor was extremely knowledgeable on the subject matter and has a passion for the content. He is wonderful and I really like how he used the dry erase board for a lot of the topics. For me, a visual gives a better understanding on how things work and the explanation.”

“I thought the class was excellent. Not only did Alan have a thorough knowledge of what he was teaching (and many other things), he presented what could be a very tedious class in a way which kept your attention. I do think there was too much material for two days, but I think that was more of a OneBeacon thing.”

“I think the instructor did a very good job. He was able to help us relate the HIPAA regulations to our specific situation, concerns, and issues. His presentation style was appreciated because what could have been a very dry topic was made somewhat more interesting with real examples & applicability to our needs. I do think 2 days was adequate to cover the material.”

"I finally feel like I have a direction to go with HIPAA."

"The instructor is very knowledgeable of the material!"

"This course went over all aspects of HIPAA."

"I recently attended the CSCS™ class taught by Ali Pabrai. I am familiar with HIPAA, PCI and SOX, but it has been a few years since I worked in the SOX and PCI areas, so I was happy for a refresher."

"Ali is a wonderful instructor, mentor and cheer leader. Although the class is 2 solid days of lecture, Ali was energetic, engaged and demonstrated his interest and care for his students throughout the class. He encouraged class discussion, while at the same time, keeping us on task to learn what was needed to pass CSCS™ certification. Although I was sceptical that I could pass on the first attempt, I was pleasantly surprised. I attribute my success to the many hints and tips Ali shared throughout the class."

"I highly recommend this class to both the novice and experienced practitioner of compliance."
Marcia Arrow, CISA, CISM, CSCS, CHP

“Virtual give me the chance to feel more relaxed being at home and also cuts down on the travel and other expenses involved with getting to a staged class. But I'm all for a public class also as this is my first virtual. Keith is a great instructor. Able to tell us how the course material reacts and is viable in the real world. Give the student a better understanding of how Cyber Security is similar in several different realms (NIST, ISA, HIPAA, PCI) but how they are relate even though there is terminology differences.
